## DETAILED ACTION

### *Double Patenting*

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Applicant elected group II contains claims 49-52, 54-56 & 73 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-62 of U.S. 6,674,362 which is patented on Jan. 6, 2004.

Although the conflicting claims are not identical, they are not patentably distinct from each other because it would have been obvious to one the ordinary person skill in the art to as both the application and the patents are directed to an emergency information terminal mounted in a vehicle having a main or primary battery mounted therein, the emergency information terminal being capable of connecting to an external device for

placing an emergency call to a center supervising a emergency information system comprising a hands-free device capable of coupling a microphone for hands-free voice talk, a first power control device and a second power control device being coupled to the main battery in parallel and an emergency information center may receive the emergency call sent from the emergency information terminal.

### **Arguments & Responses**

3. Applicant's argument filed on Dec. 27, 2004 have been fully considered but they are moot in view of the new ground(s) of rejection.

### **Conclusion**

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Reichelt ( U.S. 6,427,072 ) Reserve power system for any battery operate device.

5. Applicant 's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1. 136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
